FOR PETS**

Kona corn

BEST OF NATURE

We serve animals! But our people make the difference. At Jaap Koopman for Pets you will find real craftsmen and women. We produce high-quality animal feed with 100% natural ingredients. Preferably from the region.

We understand that our customers want the best for their animals. That is why we make animal feed based on scientific research, but above all from the viewpoint of 'don't fill, but feed'. This guarantees an even sharper eye for origin, quality and nutrients.

What makes Jaap Koopman for Pets even more unique is that we are a CO2-neutral organisation. This means that we produce our animal feed CO2-neutral and we are very proud of that.

In addition to all innovations, our mission remains unchanged: "power from simplicity".

Jaap Koopman for Pets. Natural, fair and delicious.

Kona Corn

BEST OF NATURE

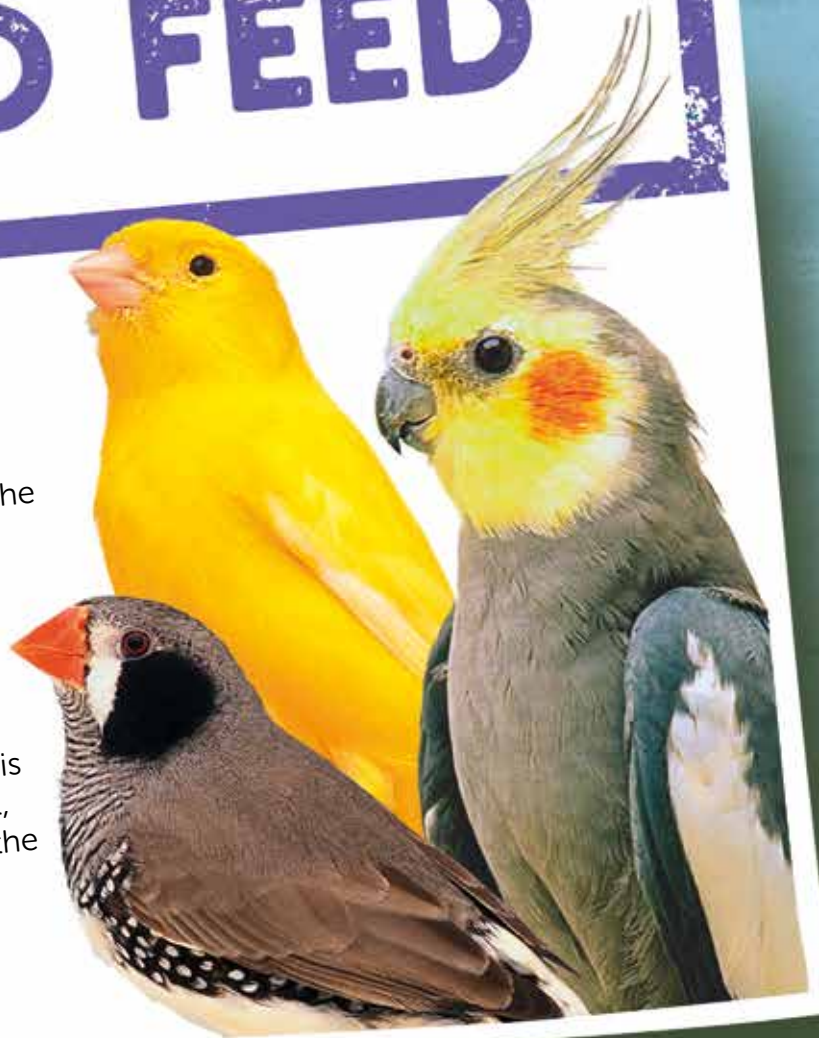

BIRD FEED

KonaCorn bird feed stands for high-quality mixes for many specific species of birds.

We ensure every mix contains the right nutritional value for the birds.

For example, we add extra vitamins and minerals to keep your bird perfectly healthy.

What's more, our bird feed is manufactured CO2 neutral, so good for the birds and the planet!

Cockatiels

KonaCorn Cockatiels is the ideal mix for your bird. The varied ingredients with sunflower seeds contribute to your cockatiel's general health. Sunflower seeds are rich in protein, minerals and unsaturated healthy fatty acids. Feeding this to your birds on a daily basis is therefore beneficial to their diet and cholesterol. A balanced food for cockatiels and other large parakeets.

Ingredients:

Yellow millet, white sunflower seeds, canary seeds, hulled oats, striped sunflower seeds, white millet, wheat, corn cockle seeds, red millet, hemp, buckwheat, linseeds, red dari, niger seeds, paddy seeds, rapeseeds, carrot pieces, rapeseed oil, rowan-berries.

Chicken Treat Mixture

KonaCorn Chicken Treat Mixture is a 100% natural treat for all chickens as well as ornamental fowl such as pheasants, peacocks, turkeys, guineafowl and partridges. It is delicious and contains cracked corn, mealworms, gammarus, peas and rapeseeds. A delicious variation in your treats and ideal for taming your chickens.

Ingredients:

Maize germ, dari, millet, oats, sunflower seeds, buckwheat, rapeseeds, mealworms, carrot pea, gammarus.

Art.nr. 303111

4 x 1,4 kg

Tobacco Staws

By placing a layer of tobacco staws on the bottom of the laying nest, a chicken coop becomes less attractive to red mites and other ectoparasites. This way you prevent chickens from getting a lot of trouble from it. Change the tobacco staws regularly so that the smell of tobacco remains strong.

Manual

Sprinkle tobacco stems on the bottom of the laying nest and mix them into the bedding. Refresh regularly to preserve the scent well. Tobacco staws are a 100% natural product.

Ingredients:

Tobacco staws

Art.nr. 303155

POULTRY FOOD ACCESSORIES

Snackroller

Spoil your chickens with the delicious KonaCorn Snack Roller made from 100% recycled plastic. This toy is ideal for keeping your chickens active and rewarding them with tasty snacks such as chicken candy seeds and insects such as mealworms. The roller measures 22.5 x 6.5 cm and is easy to fill by unclipping the twist cap on the sides. When the chickens peck at the toy, the roller rolls and the snacks fall out of the small holes. This way your chickens stay busy in a fun and challenging way. In addition, the roller can be hung with the included rope for even more variety.

Art.nr. 603301

9 st.

Feedtower

With the KonaCorn Feeding Tower made of 100% recycled plastic, you can offer chicken feed and snacks in a convenient way. The dimensions of the feed tower are 30x30x36 cm. The tower consists of 4 layers, 3 of which you can fill with different delicacies, such as mealworms or vegetables such as a little lettuce. The different floors allow both small and large chickens to enjoy a meal. You can fill the tower from the top or easily pour food into the holes of the floors. The feed tower can be attached to the ground using the 4 small holes in the bottom. The feed tower also has a drainage system.

Art.nr.603302

1 st.

To properly secure the various layers, it is recommended to attach the layers to each other and then use a layer above the layer below each time to click this layer underneath. Use the lid to snap the top layer into place. Is the tower in need of a cleaning? Then place it in the dishwasher on the ECO setting.

Snack- and play tower

With the KonaCorn Snack and Play Tower, made from 100% recycled plastic, you can offer chicken feed and snacks in a playful way. The dimensions of the feeder are 30x30x30 cm. By pecking at the snack roller, your chicken is rewarded with delicious chicken feed or a snack hidden inside. The roller rotates a bit when it is pecked at, causing the snacks to fall to the bottom. The roller is easy to fill via the cap on the side. For the drainage of rainwater, the bottom plate is equipped with a drainage channel.

Art.nr. 603303

1 st.

Moreover, you can attach the tower to the ground through the 4 small holes in the bottom. If the tower needs a cleaning, you can easily place it in the dishwasher on the ECO setting.

Feed- and drinkbath

With the KonaCorn Feeding and drinking bath made of 100% recycled plastic, there is a responsible way to offer food or water. Ideal as a feeder for smaller chickens and quails. Is the bin in need of cleaning? Then place it in the dishwasher on the ECO setting.

BEST OF NATURE

WILDLIFE

Outdoor living is becoming more and more important. Our gardens or balconies are being decorated with an abundance of green and space for wild birds and other wildlife.

Our Wildlife range offers an extensive assortment for many species of wildlife. And it's very important to take the needs of the various birds and other animals into account. We have a special summer scatter mix with extra protein and less fat as well as a mix that's perfect for the winter months. It's also inspected for common ragweed.

Want to give hedgehogs and squirrels a helping hand? We have food for them as well.

All Season Gourmet Mixture

KonaCorn All Season Gourmet Mixture is a supplemental food especially for all seed-eating birds. The carefully-selected seed mix is high in calories and provides lots of energy. The ingredients make this food safe to feed the birds year round.

Ingredients:

Wheat, red dari, white millet, maize germ, rapeseeds, buckwheat, leek seeds, black sunflower seeds, striped sunflower seeds, canary seeds, spinach seeds, peanuts, rapeseed oil.

Summer Bird Peanut Butter

KonaCorn Summer Bird Peanut Butter with cornflower, raisins and mealworms. The real bird peanut butter without salt. Mixed with birdseeds to give your wild birds extra energy. Available in a large 550 gram pot or a 350 gram pot.

Ingredients:

Peanuts, plant-based protein extracts, grains, seeds, oils and fats, honey, minerals.

Art.nr. 304310

12 x 550 gr

Art.nr. 304311

12 x 350 gr

At KonaCorn we make high-quality and sustainable products. That is why our products are produced in a climate-neutral way and we have an organic range, among other things.

The range of KonaCorn accessories therefore fits perfectly in line with what we stand for. The accessories are products made from 100% recycled plastic; namely from used drinking cartons. The paper fibers of these drinking cartons have been reused in the manufacture of boxes and toilet paper, among other things. In this ECO-friendly way, used drinking cartons are saved from the incinerator and reused to make new products.

The KonaCorn accessories are therefore good for our world and for the world of our outdoor birds. Win-win.
